

A LIGHT FROM HEAVEN

In spirit form we have much to learn
If we all stand in line and wait our turn
The star will be lit and our desires revealed
Like a piece of produce that's washed and peeled

CHORUS

Look to the future can't change the past
Live in the present not going to last
Ask for the door and the light will be shone
In a flash and an instant we will be gone

We just have to wait and be patient at best
As we withstand all the trials and tests
Experiences and wisdom go hand in hand
To plant, nurture and grow across the land
