

## A SWALLOWS CHEEK

The swallow whistles a joyous tune  
As we follow the sun and the moon  
As the swallow soars into God's arms  
We follow the swallow and make our way home

### CHORUS

The swallow soaring in its peaceful grace  
Climbing into the whispering winds we find our place  
Flying higher and higher not a care in the world  
He welcomes us with open arms, every boy and girl

Not a tear rolls down the swallow's cheek  
Soaring higher and higher with wings on our feet  
We fly into God's arms, we are home at last  
Only Heaven in front of us, putting behind us the past

### CHORUS

### BRIDGE

Moving into the future the swallow sings  
It dances in the dawning light, tail to wing  
Not a tear flutters down the swallow's cheek  
So precious a life, so precious to me

### CHORUS
