

BEATING OF TWO HEARTS

Reach your hands up towards the sky
Spread your wings and prepare to fly
Flying higher and higher on eagles wings
One voice across the land to sing

CHORUS

The beating of two hearts as one
Our journey has started just like the sun
There is nothing to fear
Just take my hand as we start to fly across the land

Our journey starts just always believe
To wear your heart on your sleeve
For two hearts beating against each other so strong
Who knows the love itself can last so long
