

## **DARE TO DREAM**

A song deep in my soul for you  
Feelings and emotions deep down inside  
Need to find rest and peace of mind  
When one has two wings and the courage to fly

### CHORUS

Take these wings and teach me to fly  
To the sky and into the night  
There is not limit to what one can achieve  
Dream the impossible have faith and believe

Sky is not always blue and clear  
Look inside your heart, there is nothing to fear  
Put your arms around me, I'll always care  
Look inside yourself, I'll always be there

### CHORUS

### BRIDGE

A new beginning, second chance at life  
Learned from my mistakes, they cut like a knife  
A deep message was its hope to bring  
I hope this song in one's heart will continue to sing
