

DISTANT WATERS

Voices sing and travel across the land
Walking together our feet in the sand
Dove flying over water gives peace of mind
Looking beyond the waters and into time

CHORUS

May angels catch you when you fall
May Eagles lift you up on their wings
May you rise up ov'r everything and all
Over distant waters may your voice sing

A rainbow of colour crosses the expanse
As we stand together and start to dance
The pot of gold, two hearts to mend
True love between us will never end
