

ETERNAL STARS

Sitting on the blanket, with you by my side
Looking up towards the screen, the stars in the sky
If I could make just one wish what would it be
To count the stars forever, with you until eternity

Watching the movie the two of us together
We couldn't ask for more to be joined forever
The sky blue and clear not a cloud in sight
The stars shining overhead the glow of the light

The movie has ended it's time for us to leave
From the day I met you, I've always believed
Looking at the stars in the sky it's getting late
When I'm with you, I don't have to leave home plate

BRIDGE

Here you are beside me, it's you I have found
We can fly with our wings, fly home safe and sound
When we're not together, my life is amiss
Just hold me close, I long for your kiss

Just hold me close, I long for your kiss
