

EVERLASTING LIFE

Expect the unexpected and take the chance
As we hold hands and our shadows dance
Don't ever be afraid there is nothing to fear
Just call on my name, with my ears I will hear

CHORUS

Memories from the past, to bond and grow
Spending time with you, that's all I need to know
Tell me you'll stay, just hold on tight
Everlasting life

Don't ever miss a shot in life, take every one
You hair so golden as it glistens in the sun
Call on my name anytime, I'll be by your side
As the water approaches, the sea so vast and wide

CHORUS

BRIDGE

The stars in the sky the Heaven's above
Don't ever be afraid I say this with love
Give me one shot, just hand me one dart
Our love will last forever, I give you my heart

CHORUS
