

FAITHLESS NIGHTS

What good is life if you don't reach out with your heart
Don't keep me waiting, all alone in the dark
Just hold my hand, I'll be there as your guard
Open your heart, and look up to the stars

CHORUS

I'll be there to provide light to find your way
Whether the sky is blue, or the darkest of gray(s)
From the rising of the sun, to the moon in the sky
Just reach out with faith, I'll be there by your side

I feel like without you, my hearts in two parts
I don't have to guess, I've already hit the mark
You're the one I've been seeking to find
I feel like our hearts have been intertwined
