

FOR BETTER OR FOR WORSE

We think its love that's blind but it's our fears
Until we step back and look in the mirror
I promise you with the words of this song
Our love will always remain strong

CHORUS

'Til the end of time I will never break your heart
Without you, I feel lost in the dark
I promise I will never leave you
For better or for worse

I give you my hand and a single red rose
Pot of gold at the end of the rainbow
Tears that we cry and share together
Means our love will last forever
