

FORK IN THE ROAD

So as I walk along this road of black
I don't know what's forward, I'm not looking back
With you I feel as if I don't have to hide
You've always been right there at my side

CHORUS

I know how you're feeling
I wish there was more
I've walked down this path before
Take a chance and leave everything behind
When you get to
The fork in the road

My heart decides which path to take
Because of you, it's easy to make
Thinking of you, you're always on my mind
The length the road and the true test of time

CHORUS

BRIDGE

CHORUS

Take a chance and leave everything behind
When you get to
The fork in the road
