

I PROMISE YOU THIS

If you ever want to talk pick up the phone
I'll stop what I'm doing I'm on my way home
If ever in doubt just look up above
To give you hope and faith soaring high is the dove

CHORUS

Don't cry me a river for I am right here
Please do not cry now not one single tear
I hope you have nothing in your heart to fear
I promise you this I've always been right here

To find a friend like you is so rare
I hope in your heart to me do you care
A friendship like ours is a true gem indeed
Riding far in the night a horse, rider and steed

CHORUS

BRIDGE

The trials and struggles we've been through thus far
I believe we're right on track we're right on par
To pick you up when you feel blue
We stick to each other I'll never leave you

CHORUS

I hope you have nothing in your heart to fear
I promise you this I've always been right here
