

## LONG ROAD HOME

The times you feel alone and empty inside  
You have nowhere to run and nowhere to hide  
When you feel like nothing in your life is going right  
You like at the sky and the clouds don't seem white

When you feel like it's over and you have nowhere to run  
When you won't face the day and can't see the sun  
The rug has been pulled out from under your feet  
You life's been shattered no longer complete

### CHORUS

When you find strength within  
That's when life can truly begin  
You feel the cold standing on the floor  
You've travelled the road to find the door  
On the long road home

### BRIDGE

When you can't see the light to find your way  
And you feel like your faith is slipping away  
Crying to sleep every night always in pain  
Hoping you don't have to live the day again

Your life is in pieces and they don't want to fit  
Everyone walked away, not even a second look  
So much to give nothing in return to show  
I always wondered if they'd ever know

### CHORUS
