

## LOOK IN MY EYES

Whenever you need me, call on my name  
I will be there for you, through struggles and pain  
I will never leave you, i promise you this  
Situations will come, not one will I miss

### CHORUS

Look in my eyes you will see  
The light that shines through the sun and the sea  
It pierces the soul in a thousand ways  
From now 'til forevermore

Open your eyes and see, I am right here  
Please do not cry, shed not a single tear  
Look inside your heart, do not be afraid  
For I am right beside you, day by day

### CHORUS

### BRIDGE

Two peas and a pod the expression goes  
Four ends of the earth, the fair winds may blow  
A flower, a rose, the spring crisp air  
From now 'til forever, I'll always care

### CHORUS

I hope you agree, it wouldn't be right  
Without you beside me, right here in my sight
