

## MY PROMISE TO YOU

The fire deep within my soul  
Can't fight it no, going out of control  
This promise to you to never be apart  
My soul and yours, joined by our hearts

### CHORUS

I give this promise to you on this day  
I need you to love me, please don't look away  
To be joined today with your wedding band  
Right here at the altar I give you my hand

My love for you extends beyond the seas  
The grass so green, the wind through the trees  
The birds and the bees working in harmony  
The love between us for all to see

### CHORUS

### BRIDGE

Just give me your word, don't look in the past  
For this love between us, forever it will last  
As we stand together, I give you my heart  
With you by my side, I can make a fresh start

### CHORUS
