

ON EAGLES' WINGS

To heaven we go one path to follow
The past, the present, looking to tomorrow
Our father in heaven, knows each of our needs
Which gives us peace, and a chance to breathe

CHORUS

We can have peace of mind, just take me home
Where the moon is mellow and the roses are grown
Each and every day we learn new things
As we climb higher and higher, on eagle's wings

We are Spirits, just doing our thing
To the sky, on those mighty wings
The grass is greener on the other side
We never really say our last goodbye

CHORUS
