

## QUICK ON THE FEET

Don't know how and I don't know where  
From the tip of my toes to the top of my hair  
I gotta keep running, this much I know  
Long journey ahead, can't take it slow

### CHORUS

Can't stop running and I'm out of breath  
Don't know where the path will lead to next  
Running so fast can't feel my heart beat  
Sweat on my brow and the shoes on my feet

I can stop running get a breath of air  
Rays of the sun shining on my hair  
Light is shining so I can see  
I found the place I need to be
