

SHINE THE LIGHT

We never know what tomorrow will bring
As the eagles soar and the birds start to sing
What we know is to shine the light
For we never know until we try, we just might

CHORUS

To plant the seed and nurture it to grow
To produce what you reap, to reap what you sow
Brothers and sisters in God's gentle hands
As we look and seek to uncover His plans

What one can do if they only dare to dream
Nothing is as hard as it may seem
Just have the faith and ability to believe
To do the impossible, what one can't achieve

CHORUS

BRIDGE

The journey is hard and the road is long
Just keep the faith even after we finish this song
Just lift up your hand to touch the sky
Life isn't over even after one dies

CHORUS
