

SOUL LOVERS

They say true love is hard to find
But when the souls begin to bind
A spark ignites and burns like the sun
True love exists, are you the one?

CHORUS

Pure as the water, as hard as stone
As soft as the grass place I call home
The eagles soar flying high is the dove
Nothing more I can give, but my heart with love

Being with you is like living in paradise
Stay with me forever, don't ever think twice
You've made my life complete, in so many ways
What matters is love, it never counts the days
