

STARS IN YOUR EYES

In your arms, just hold me tight
As we dance together long into the night
Our fingers joined together, I don't want this to end
Looking in your eyes, I see more than a friend

CHORUS

Like diamonds, your eyes sparkle and shine
I've always known in my heart that you're mine
Shooting stars in outer space
The sun the shines on your radiant face
Like the sun that moves across the sky
I see the twinkle of stars in your eyes

Colours of the rainbow, pictures for all to see
When I look in your eyes, I think of you and me
I could hold your arms forever, 'til the end of time
Just tell me you'll love me, and say that you're mine

CHORUS
