

## THE SUN IN THE SKY AGAIN

From the highest of mountains, to the deepest of seas  
You've always had my heart; in your hand the key  
When I feel like the rain has washed me right out  
When I feel like I have no hope, and am full of doubt

### CHORUS

You are the light that shines each day  
The sun in the sky, each beautiful ray  
You take away all my pain  
Don't cry any tears for me  
You are my sun in the sky again

Be my light in the darkness, when I can't see my way  
When my heart is broken and my sky is grey  
The bumps in the road, through all the turns and the bends  
Travel forever with me, I never want this road to end

### CHORUS

### BRIDGE/MODULATION

### CHORUS

You take away all my pain  
Don't cry any tears for me  
You are my sun in the sky again
