

For this original work, I have decided to combine both the girl and boy lyrics onto one document. That being said, I do have two separate Word Documents for this work and two different music scores – one for girl, one for boy.

## **TIME TO FLY**

### **VERSE 1**

Your parents held you in their arms, and they started to cry  
They knew one day in their hearts, would have to let you fly  
They took you home that day, a bundle of joy  
Staring up at them with big eyes, a little baby girl

### **PRE-CHORUS 1**

They laid her in her crib, all nestled inside  
Standing there beside her, looking in her eyes

### **CHORUS**

She never gave up and never broke down  
She kept her head high, and her feet on the ground  
Sometimes she won, sometimes she lost, and that is okay  
She had the strength to rise to face each and every day  
When she looked up to the sky, her parents heaved a sigh  
They both knew it was time to let her fly

### **VERSE 2**

She took her first step without help, her parents were proud  
Her first word was spoken, it was said right out loud  
She learned her basic numbers, she learned her ABC's  
Played in the backyard, a fort at the top of a tree

### **PRE-CHORUS 2**

Then one day when she was 5, a lunchbox in her hand  
They watched her get on the bus, they stood hand-in-hand

### **CHORUS**

### **BRIDGE/MODULATION**

### **VERSE 3**

She worked hard in high school, her grades were not high  
She had a close circle of friends, enough to get her by  
Standing tall with all her classmates, their caps in the air  
Standing strong together, a beautiful moment to be shared

**PRE-CHORUS**

Her parents stood up and cheered with tears in their eyes  
They thought of all the years gone by and how fast time flies

**CHORUS****BRIDGE/MODULATION****VERSE 4**

One day she got married, her parents were so very proud  
It took place outside, a sunny day, when each made their vows  
They bought a house with lots of land, had children of their own  
They knew that as the years went by, they would be fully grown

**PRE-CHORUS**

Just like their parents, their children looked up to the skies  
As their children spread their wings, tears welled in their eyes

**CHORUS****CHORUS (LAST LINE)**
