

TO THE SEA

The rolling of the waves and sand against my feet
The colour of the sea, the eyes I'd like to meet
The water so pure, so clean and so blue
I am glad to have met someone as wonderful as you

CHORUS

Looking beyond the heart to the eyes and the soul
It warms me up on a winter's day, when baby it's so cold
Marching to the boat of our own drum
Sit awhile with me, please sit down, won't you come

We can sit and watch the sun in the sky roll away
We can do this each night at the end of each day
Please baby won't you sit with me, won't you stay
We can do our own thing together, don't lead me astray

CHORUS
